### NOTAS EXPLICATIVAS PARA MEJOR INTERPRETACION DE LOS RESULTADOS

|                                                                                                                                    |                      |                                                               |                                                     |
|------------------------------------------------------------------------------------------------------------------------------------|----------------------|---------------------------------------------------------------|-----------------------------------------------------|
| <b>D:</b> Dilución efectuada a la Muestra                                                                                          | <b>NA:</b> No aplica | <b>AA:</b> Prueba Acreditada o Aprobada (ver Tabla siguiente) | <b>AN:</b> Clave del Analista que realizó la prueba |
| <b>ND:</b> Significa que el resultado del analito es un valor menor al expresado en la celda LDM. Otra forma de expresión es <LDM. |                      |                                                               | <b>NE:</b> Análisis No Efectuado                    |

- Para calcular la Cantidad Mínima Detectable en la muestra analizada, se debe multiplicar el LDM por la dilución efectuada (D)
  - Si el resultado es mayor que el Límite de Detección del Método (LDM) y menor que el Límite Práctico de Cuantificación (LPC), debe ser tomado como estimado
  - Cuando en la columna LPC se expresa \*\*\*, significa que el valor reportado corresponde a la Cantidad Mínima Cuantificable, LDM no aplica para este Método.
  - En los casos en los que se reportan métodos alternos estos han sido Autorizados por la dependencia correspondiente y de acuerdo al Art. 49 de la LFMN.
  - (I) El análisis fue realizado con el Método Extranjero (EPA, ISO, SM, ASTM, etc) que se indica, el cual es un Método Alterno al Método Nacional (NMX o NOM).
- El reconocimiento de este Método Alterno por las autoridades competentes se indica en la columna AA.
- Los valores de las Incertidumbres Expandidas de cada uno de los parámetros reportados en este informe se encuentran a su disposición previa solicitud.

### DECLARACIONES

- Este informe de Pruebas no podrá ser reproducido total ni parcialmente sin la autorización escrita y firmada por la dirección General.
- Los resultados de las pruebas reportadas fueron realizados con los métodos y procedimientos aquí asentados, y solo afectan a la muestra sometida a prueba.
